1.8 MILLION HECTARES OF PLANTATION.  
ONE SPECIALIST BROKER.

# 9

BILLION DOLLAR INDUSTRY. ARE YOU COVERED?

---

Commercial forestry is one of Australia's fastest growing agricultural industries, with plantings increasing at a rate of about 80,000 hectares a year and an industry vision of 3,000,000 hectares by 2020. However, AgriRisk estimates that only about a third of all forestry plantations are insured for catastrophic losses due to fire, wind and hail.

Plantations represent a significant, long term investment. Good corporate governance demands these investments are protected for the sake of commercial owners, investors and in the case of government-managed plantations, the public.

## STATE FORESTS, CORPORATE PLANTATIONS, MANAGED INVESTMENT SCHEMES, PRIVATE PLANTATION OWNERS

### 1.8 MILLION HECTARES. ONE SPECIALIST BROKER.

---

AgriRisk is the only broker in Australia that specialises in insurance for agribusiness, including for the forestry industry. Established in 1989, the organisation has 20 specialist staff located in Australia and New Zealand, providing insurance advice and solutions to commercial plantation owners, risk managers, farmers and rural investors.

AgriRisk has an established international reputation for broking, product design and independent risk consulting as well as in-house agronomic expertise. AgriRisk is uniquely positioned to offer its forestry clients a range of products, skills and services, which include arranging insurance cover for destruction or damage to trees.

AgriRisk is focussed on tailoring and building insurance products to suit the particular interests of your forestry business — and if there is no 'off-the-shelf' product suitable, a policy will be designed to suit your needs.

### HUNDREDS OF POLICIES. NO TWO THE SAME.

---

More than any other broker, AgriRisk understands the specific needs of its forestry clients and has extensive experience with government, corporate plantations and Managed Investment Schemes. No two forestry insurance policies are the same because no two businesses are the same.

AgriRisk will conduct a needs analysis as well as gain a clear understanding of how the business expects its insurance to perform in the event of a loss. The team can also facilitate a full risk assessment and asset valuation if required. An appropriate policy will then be structured or designed to suit your individual needs.

---

## WHAT DOES FORESTRY INSURANCE COVER?

---

Like most primary producers, your investment capital and income-producing assets are exposed to a variety of production risks, including a number of natural perils that are difficult or impossible to manage.

AgriRisk can access forestry insurance products that financially safeguard plantation owners and managers against the most common risks including fire, wind and hail. Insurance covers destruction and damage of trees and can also cover removal of debris, fire fighting and claims preparation costs.

AgriRisk's qualified staff can provide specialist advice and specific recommendations based on the needs of your forestry business.

- Please see AgriRisk's product leaflets for specific policy details, as these may change from year to year
- Other products of interest: Olives, Forestry New Zealand, Broadacre, Cotton, Horticulture

### **3,000 CLAIMS. NO DISPUTES.**

---

In the event of a loss, AgriRisk acts on its clients behalf to facilitate a simple, accurate and efficient claims process using specialist agricultural loss adjusters. In almost 20 years AgriRisk has facilitated the payment of a variety of claims with over \$200 million paid to their clients — with not one reaching litigation.

### **AN EXPERIENCED AGRIBUSINESS TEAM.**

---

The AgriRisk team has extensive experience in agriculture, unrivalled product knowledge and is dedicated to providing quality personal service to its clients. Your Account Manager will provide honest and expert advice, look for better ways to structure insurance and encourage a regular review of your insurance position, because it makes good business sense. Staff also take the time to meet their clients face to face, every year. To make an appointment please contact AgriRisk today.
