1.8 million hectares of plantations.

800 cotton growers.

8 million olive trees.

THOUSANDS OF FARMERS.

ONE SPECIALIST BROKER.

33,000 broadacre farms.

100,000 tonnes of stonefruit.

Thousands of rural businesses.

AgriRisk is the only broker in Australia that specialises in insurance for agribusiness. Established in 1989, AgriRisk has offices in Sydney, Tamworth and Auckland, providing a range of agricultural insurance covers for small to corporate farms and plantations, Managed Investment Schemes and businesses reliant on primary production.

AgriRisk specialises in crop protection insurance for the cotton, broadacre, forestry, olive, horticulture and viticulture industries, niche crops and specific cover for rural supply chain businesses.

With in house agronomic expertise and an international reputation for product design and risk consulting, AgriRisk offers its clients a unique range of skills and services. AgriRisk can tailor and build insurance for a range of agricultural risks and is the only broker dealing exclusively with the rural sector.

COTTON, BROADACRE, APPLES, OLIVES, GRAPES, FORESTRY, STONEFRUIT

BEYOND CROP PROTECTION.

Although a crop protection specialist, AgriRisk has gained an international reputation for designing products to cover complicated and specific insurance requirements. This has included income protection for quality downgrades and insurance to protect niche crops and businesses in the supply chain.

Consulting to the World Bank, the Food and Agriculture Organisation and the governments of Australia, Thailand, Argentina, Vietnam and the Philippines, AgriRisk has established itself as a leading provider of insurance related products and services throughout the Asia-Pacific region.

AgriRisk also offers general insurance products to clients wanting to deal with just one broker for all their on and off-farm insurances.

THOUSANDS OF CLIENTS. NO TWO POLICIES THE SAME.

AgriRisk's clients are located throughout Australia and range from small farms to corporate enterprises, rural investors, supply chain businesses, government and Managed Investment Schemes.

Every business has individual insurance requirements and therefore, at AgriRisk, no two policies are the same. AgriRisk will spend time getting to know your business, defining your insurance objectives and understanding how your insurance is expected to perform in the event of a loss.

Each policy is then structured according to these particular requirements. AgriRisk has access to flexible products and a track record of showing great innovation in structuring the appropriate insurance solution for its clients.

AN EXPERIENCED AGRIBUSINESS TEAM.

The AgriRisk team has extensive experience in agriculture, unrivalled product knowledge and is dedicated to providing quality personal service to its clients. Your Account Manager will provide honest and expert advice, look for better ways to structure your insurance and encourage a regular review of your insurance position, because it makes good business sense. Staff also take the time to meet their clients face to face, every year.

3,000 CLAIMS. NO DISPUTES.

In the event of a loss, AgriRisk acts on its clients behalf to facilitate a simple, accurate and efficient claims process using specialist agricultural loss adjusters. In almost 20 years AgriRisk has facilitated the payment of a variety of claims and over \$200 million has been paid to their clients — with not one reaching litigation.
