

A

agriRisk is the only broker in Australia that specialises in insurance for agribusiness. Just like any other rural product or service, AgriRisk believes that insurance is best delivered by people who work in rural communities every day. While many businesses are moving out of regional areas, AgriRisk is moving in. Tamworth is the first of many planned regional offices centred around agricultural districts, bringing AgriRisk closer to its rural clients.

THOUSANDS OF FARMERS. ONE SPECIALIST BROKER.

TAMWORTH

The regional team of AgriRisk is located in Tamworth, North West NSW and predominantly services rural businesses south to the Macquarie and into south western Queensland. There are agronomists and farmers on staff, as well as insurance specialists who've been in the industry for over 20 years.

Living and working in Tamworth means the team is close to rural issues and has a first-hand understanding of the culture of local rural business. The team is responsive, ready to help with claims and can deal with any issues promptly and in person.

Although a crop insurance specialist, AgriRisk's regional office can also access general insurance products for rural supply chain businesses, agronomists and farmers looking to cover both on and off farm assets and protect themselves against a wide range of liability exposures.

AgriRisk's regional team of five are regularly on the road, visiting clients and working with farmers to better understand their insurance requirements. Staff will take the time to conduct a needs analysis and develop custom-made policies that are appropriate to particular needs, regardless of how specific they are. The emphasis is on finding appropriate insurance that will do the expected job in the event of a loss. AgriRisk has access to flexible insurance products and a track record of showing great innovation in crafting the best solutions for its clients.

You can call AgriRisk's Tamworth office day or night and speak to an Account Manager. You won't be put in a queue, you'll talk to a real person and you won't just receive a renewal fax once a year. The staff can answer detailed questions about your policy and will make representations to the insurer on your behalf. They'll shop around for the best deal, look for better ways for you to manage your insurance portfolio and give honest and upfront advice.
