

A

griRisk is the only broker in Australia that specialises in insurance for agribusiness and believes that insurance is best delivered by people who work in rural communities every day. While many businesses are moving out of regional areas, AgriRisk is moving in.

THOUSANDS OF FARMERS. ONE SPECIALIST BROKER.

TOOWOOMBA

AgriRisk's Queensland team is located in Toowoomba on the Darling Downs and services rural businesses throughout south western Queensland and as far north as Central Queensland. The team has over 60 years combined experience in insurance and agriculture and is committed to providing personalised service to its clients.

Living and working in Toowoomba means the team is close to rural issues and has a first-hand understanding of the culture of local rural business. The team is responsive, ready to help with claims and can deal with issues promptly and in person.

Although a crop insurance specialist, AgriRisk's Toowoomba office can also access general insurance products for rural supply chain businesses, agronomists and farmers looking to cover both on and off farm assets and protect themselves against a wide range of liability exposures.

AgriRisk staff are regularly on the road, visiting clients and working with farmers to better understand their insurance requirements. Staff will take the time to conduct a needs analysis and develop custom-made policies that are appropriate to particular requirements, regardless of how specific they are. The emphasis is on finding insurance that will respond appropriately in the event of a loss. AgriRisk has access to flexible insurance products and a track record of showing great innovation in crafting the best solutions for its clients. AgriRisk is also a member of the Steadfast group, an insurance broker cluster group that provides AgriRisk with extra buying power and flexibility when negotiating with underwriters.

Understanding that farmers work outside office hours, you can call AgriRisk's Toowoomba Office any time of day to speak to an Account Manager. You won't be put in a queue, you'll talk to a real person and you won't just receive a renewal fax once a year. The staff can answer detailed questions about your policy and represent your interests to the insurance market. They'll shop around for the best deal, look for better ways for you to manage your insurance portfolio and give honest and upfront advice.

Knowledgeable local staff. Agricultural specialists. Flexible, innovative solutions. Regional focus. In touch.
